EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Maria C. Gasaway on September 20, 2005.

In each of claims 18 and 20, line 4, the abbreviations "HBCD, DCP, BE-51, TPP" have been deleted in favor of the new language --hexabromocyclododecane, dicumyl peroxide, tetrabromobisphenol A bis(allyl ether), triphenyl phosphate--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Applicants' claims have been amended to require microcapsules in which the shell composition incorporates one or more additional materials that provide at least one auxiliary function, i.e., fire retarding, flame suppressing, conductivity modifying, thermal stabilizing or insecticidal functions. The closest prior art found, EP '554 and Vincent et al, fail to teach or suggest the formation of microcapsules in which the shell composition provides any of said auxiliary functions. Accordingly, the present claims are deemed allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
